I began my career at Electra Film & TV. During my four years with them I gained experience in maintaining and shooting with most video formats. Since leaving them I have been working as a freelance camera assistant / operator on a wide range of shoots including corporate, documentary, drama and commercial. My experience includes operating, lighting, minicams, jimmy jibs, ladder pods, focus pulling, helicopter shoots, Preston LCS operation and experience filming abroad. I have a keen interest in digital photography having recently purchased a Canon 5D Mk II with wide and long L series lenses. I have recently attended a BBC health and safety seminar held at Electra Film & TV.

## RECENT CREDITS
