Paul Roberts

Camera Assistant

Having graduated with an MA in Media Production I worked as a bestboy in the North East under Davey Morgan (Gaffer) and as a studio engineer in satellite broadcasting, before working at the Cruet Company for three years.

I have worked as both assistant and operator on a wide range of forms from drama to corporate productions, broadcast reality television to multi-camera musicals and live events to standard PSC. I would like to think of myself as hard working, enthusiastic and with a wide knowledge base.

Prod Title	Prod Co	DOP	Format
