background:

I began my television career working as a runner on programs including Big Brother and Soccer Aid, before joining Electra Film & TV in 2006 to develop my camera skills. Having worked through the kitroom, I have learnt a great deal about cameras, lighting and grip equipment. As an in-house assistant, I have worked on a wide array of productions, from corporate to commercial, documentary and drama. Additionally, I have obtained experience on outside broadcasts having worked with CTV during my spare time. Through Electra's sister company, Offtrax, I have also had the opportunity to learn Jimmy Jib's and have gone on productions as a Jimmy Jib assistant. Being at Electra has allowed me to be at the forefront of new technology as it arrives in the country, including Panasonic's solid state P2 format.
