I have over 25 years experience as a sound mixer / recordist in the industry, starting in news and current affairs and working in most factual genres, dipping the occasional toe in drama along the way. I now work mainly in entertainment / reality, documentary and commercial / corporate.

I've recorded pretty much everything from single pieces to camera and interviews to singers, bands and full orchestras. There aren't many set-ups I haven't experienced though I always relish a new challenge.

I have my own comprehensive sound kit (list on request). I'm committed to reducing my carbon footprint on shoots: all batteries are rechargeable and consumables are used with thought and re-used wherever possible. I also try to commute using public transport wherever possible.
Have wheels (on kit bag), will travel.

I do have transport where required with clean driving license, full CRB /DBS and, randomly, unsupervised climbing accreditation.
